

The Leadership Challenge

A unique opportunity to test & fine-tune your leadership skills ...

Have you ever wondered how effectively you are leading your business ?

Would you relish the opportunity to test and fine-tune your skills in a variety of physical and mental challenges ?

That's what the Leadership challenge offers.

During this unique 2-day programme, you will work with other business leaders and owners, sharing ideas, creating solutions and developing a very real understanding of your leadership strengths and how to make them work for you. You will identify strategies to tackle the areas in which you are having less impact and recognise ways in which your leadership can enable your team to become a more effective business asset.

We will challenge many of your assumptions and ensure that you leave with an enhanced awareness of how your leadership approach is both helping and hindering the growth of your business as well as practical ideas for improving the engagement of your employees.

Programme Content

DAY 1

- What is it that makes you a leader ?
- What type of leader are you ?
- What impact do you have on your team ?
- How can you maximise your impact ?

DAY 2

- What kind of a decision maker are you ?
- How does that affect your team ?
- How effectively do you communicate ?
- What can you do to enable your team to be more effective ?

The programme is run at Outdoor Elements fantastic new centre in Simonstone set within a 7-acre woodland. We provide the challenges; all you need to bring is your knowledge, skills and a willingness to be challenged.

NB No one will be asked to undertake physical challenges that they are not comfortable to do and the successful completion of the challenges will require
